

EVARAMU GROUP LTD

BUSINESS PLAN · 2025 – 2028

Real Estate | Construction | Wealth Building

"We don't just sell property. We build wealth."

Kigali, Rwanda | Confidential | May 2025

01. Executive Summary

evaramu Group Ltd is a modern real estate, construction, and property wealth company based in Kigali, Rwanda. We are not simply a brokerage. We are a full-cycle wealth-building engine — we find the right property, help clients buy it, build or renovate it, manage it, and when the time is right, help them sell it and reinvest. A client who starts with one property can realistically grow to owning 4–5 properties within 3 years by recycling gains through our guided cycle.

Core Philosophy: We help ordinary Rwandans and diaspora investors build real, lasting wealth through property — not just one transaction, but a lifetime relationship with a system that works for them.

Company Overview

Field	Details
Legal Name	evaramu Group Ltd
Founded	2025 Kigali, Rwanda
Structure	company with two active divisions + internal board
Division 1	evaramu Realty — Brokerage, Property Marketing, Wealth Cycles
Division 2	evaramu Construction — Renovation, Finishing, Residential Builds
Core Edge	Technology + trust + full-cycle model that no local competitor offers
Year 1 Target	RWF 30–45 million revenue 10+ closed deals
3-Year Target	RWF 150+ million First development project PropTech platform

The Wealth Cycle — Our Unique Model

Most agencies close a sale and disappear. evaramu Group Ltd stays. We designed a cycle that keeps growing a client's portfolio over time:

Step	What evaramu Does	Client Outcome
1 — Find	Source verified land or property matching budget and goals	Client buys first property with full guidance
2 — Build / Improve	Renovate, finish, or construct to increase value	Property value increases 20–50%
3 — Earn	Place tenants and manage property for passive income	Monthly rental income starts flowing
4 — Sell at Peak	Advise on right time to sell, market it professionally	Client captures appreciation + rental gains

5 — Reinvest	Redirect proceeds into 2–3 new properties	Client now owns multiple assets
6 — Repeat	Cycle continues with larger portfolio each round	From 1 property to 4–5 within 3 years

02. Market Analysis — Rwanda 2025

Key Market Numbers

Metric	Data
Market Value (2025)	USD 95.70 billion — residential dominant at USD 84.85B
Projected 2029 Value	USD 110.10 billion (3.57% CAGR)
Annual Housing Need	30,000+ new units per year
Units Delivered (2024)	Only 13.8% of annual requirement — massive gap
Nationwide Housing Deficit	400,000+ units and growing
Kigali Demand by 2032	Projected to double from 367,000 to 721,000 households
Prime Rental Yield	8–12% per year (apartments) 7–10% (villas)
Land Appreciation	15–20% year-on-year in strategic Kigali corridors
Bugesera Airport	Opens new sub-markets — residential and hospitality — by 2027–28
Population Growth	13.2M today → 23.6M by 2052 — structural demand guaranteed

Target Customer Segments

Segment A — Local Middle-Income Families (Volume)

The largest group. Professionals and families in Kigali looking for land or homes in the RWF 10–80M range. They want trust, professional documentation, and clear guidance — things informal brokers cannot offer.

Segment B — Rwandan Diaspora (High Value)

Rwandans in Europe, North America, Canada, and other African countries who want to invest back home. They fear fraud, need remote transparency, and will pay a premium for a trusted partner who sends them video updates, verified titles, and monthly reports. This is the most underserved and highest-margin segment in Rwanda today.

Segment C — Property Wealth Builders (Loyalty)

Clients who want to build a portfolio over time, not just buy once. These are the clients who enter our wealth cycle and become repeat customers worth millions in lifetime value. We acquire them through trust and results.

Segment D — Construction & Renovation Clients

Homeowners and investors who need professional finishing, renovation, or supervised builds. High unmet demand — the market is flooded with unbranded, unreliable contractors.

03. Competitor Analysis

There are 204 registered real estate and construction companies in Rwanda (2025), but 99% are single-owner informal operations with no systems, no branding, and no technology. The few large formal players dominate big projects but ignore the middle market entirely.

Real Estate Competitors

Company	Strength	Critical Weakness	evaramu Edge
Iwawe Properties (RWF ~\$42.6M rev)	Largest brand, wide portfolio	Too large, slow, unaffordable for regular buyers	We serve the middle market they ignore
Simba Diaspora Ltd	Online presence, diaspora focus	No construction arm, no wealth cycle	We offer full-cycle — not just listings
Kwanda Real Estate	Content marketing, SEO visibility	Informational, not operational	We execute deals, not just content
Relocation Experts Rwanda	Full service: rentals, design	No construction, premium pricing	We integrate construction for higher ROI
200+ informal brokers	Local knowledge, low fees	No brand, no docs, no follow-up, no trust	Professionalism kills them every time

Construction Competitors

Company	Strength	Critical Weakness
Real Contractors Ltd (Crystal Ventures)	Established 2005, government-linked, large projects	Too large for small residential — ignores our market
FDG Africa	Infrastructure, eco design, premium urban projects	Not for middle-income residential
NGD (Next Gen Developers)	Affordable housing development focus, funded	Developer only — not renovation or client builds
Local masons (unbranded)	Cheap and available	Unreliable, verbal contracts, no accountability

7 Gaps We Must Own

These gaps exist across every competitor. evaramu Group Ltd must dominate all 7.

Gap	What Competitors Do	What evaramu Does
-----	---------------------	-------------------

Wealth cycle model	Sell once, disappear	Stay with the client through buy → build → earn → sell → reinvest
Diaspora trust system	Phone calls, WhatsApp, no documentation	Video updates, digital contracts, verified titles, client dashboard
Property photography & marketing	Blurry phone photos in WhatsApp groups	Drone video, professional photography, mapped online listings
Integrated realty + construction	Agents and builders are separate businesses	One company that brokers AND builds — full value chain
Transparent documentation	Verbal deals, no receipts, title disputes	Digital contracts, cost tracking, title verification workflow
CRM and lead follow-up	Leads lost, no follow-up system	Automated WhatsApp sequences, CRM tracking every contact
Consistent content & education	Almost no agent posts educational content	Weekly: land tours, market data, renovation reveals, testimonials

04. Company Structure & Governance

Legal Entity

evaramu Group Ltd is registered as a private limited company in Rwanda under the Rwanda Development Board (RDB). The group operates as a holding parent with two active business divisions. Future divisions (PropTech, Capital, Management) will be added as sub-entities under the group.

Group Structure

Entity	Type	Focus
evaramu Group Ltd	?	Strategy, governance, brand, treasury
evaramu Realty	Division 1	Property brokerage, sales, rentals, diaspora services, wealth cycle
evaramu Construction	Division 2	Renovation, finishing, supervised builds, site management
evaramu Technologies (Future)	Division 3 — Phase 3	PropTech platform, listings, dashboards, AI tools
evaramu Capital (Future)	Division 4 — Phase 4	Property investment fund, syndications, portfolio management

Board of Directors

evaramu Group Ltd operates with an internal Board of Directors to ensure accountability, strategic alignment, and disciplined decision-making from day one — even as a small company. This signals professionalism to investors, banks, and enterprise clients.

Role	Responsibilities	Ideal Profile
Chairman / Co-Founder	Sets vision, owns strategy, final authority on major decisions	?
Managing Director (MD)	Daily operations, team management, deal execution, P&L ownership	?
Head of Real Estate (Director)	Leads evaramu Realty — listings, deals, diaspora clients, property cycle	?
Head of Construction (Director)	Leads evaramu Construction — projects, contractors, site quality	?

Finance Director	Cash flow, invoicing, budgets, commissions, financial reporting	?
Non-Executive Advisor (optional)	External perspective, introductions, governance quality	?

Board Meeting Cadence: Monthly. Agenda: financials, deals in pipeline, team performance, risks, next 30-day priorities. Minutes recorded and filed. This separates you from every informal operator immediately.

05. Team Structure — Hire By Strength

Every person on the evaramu Group Ltd team should be placed based purely on what they are naturally good at — not convenience or friendship. The wrong person in the wrong role will destroy deals, reputation, and culture. Hire slow, fire fast.

Phase 1 Team (Months 1–6) — Lean Founding Core

Role	What They Do	Key Skill Required	Full/Part Time
Co-Founder 1	Technology, systems, marketing, branding, social media, CRM, website	Engineering + digital strategy	Full Time
Co-Founder 2	Client relationships, land sourcing, deal negotiation, market intelligence	Trust + local network + negotiation	Full Time
Social Media Manager	Daily content creation, posting, community engagement, short-form video	Creative, fast, understands TikTok/IG	Part Time / Freelance
Photographer / Videographer	Property photography, drone shots, before/after content, reels	Drone license + visual storytelling	Freelance per project
Legal / Documentation	Contracts, title verification, transaction documents, RLA coordination	Real estate law basics, attention to detail	Part Time / Retainer

Phase 2 Team (Months 7–18) — Growth Hires

Role	What They Do	Key Skill Required	Priority
Sales Agent (Realty)	Qualify leads, show properties, close rental and sales deals	Persuasive, trustworthy, fast follow-up	High
Site Supervisor (Construction)	Manage construction and renovation sites daily, coordinate labor	Construction experience, detail-oriented, honest	High
Finance / Admin	Invoicing, tracking commissions, monthly reports, receipts	Excel/accounting, organized, reliable	Medium
Customer Success	Follow up with existing clients, collect	Empathetic, communicative, WhatsApp-native	Medium

	testimonials, nurture diaspora accounts		
Content Creator (Upgrade)	Full-time content production: scripts, videos, graphics, campaigns	Strong storytelling + social media expertise	Medium

Phase 3 Team (Year 2–3) — Scale Hires

Role	What They Do	Notes
PropTech Developer	Build and maintain listing platform, client dashboards, AI tools	Remote hire possible — full stack
Property Manager	Manage rental portfolio: tenants, maintenance, payments, reporting	For when managed units exceed 20
Marketing Manager	Oversee all channels: paid ads, influencer, SEO, email campaigns	Data-driven marketer
Quantity Surveyor	Accurate costing for construction bids and projects	Critical once construction volume grows
Regional Agent(s)	Cover peri-urban areas: Musanze, Huye, Eastern Province	As market expands beyond Kigali

Culture Rules — Non-Negotiable

- Every deal is documented. No verbal-only agreements inside or outside the company.
- Speed is a differentiator. Respond to every lead within 2 hours. Competitors take days.
- No one hides problems. Bad news is shared immediately so it can be fixed.
- Client trust is the product. Every team member protects it or leaves.
- Results over seniority. The best idea wins regardless of who has it.

06. Social Media Strategy — In Depth

Social media is not an add-on for evaramu Group Ltd. It is the primary trust-building and lead-generation engine. In Rwanda's real estate market, consistent, authentic content is the fastest way to be perceived as the most credible agency — because almost no competitor does it well.

Platform Strategy

Platform	Primary Goal	Content Type	Post Frequency
TikTok	Reach young buyers, go viral, build brand awareness	Short land tours, renovation reveals, wealth tips (15–60 sec)	Daily or 5x/week
Instagram	Establish premium brand, showcase listings, attract diaspora	Reels, carousels (market data), Stories (behind-scenes, polls)	5–7x/week
Facebook	Reach 35–55 age group, share listings, build community	Property listings, market updates, educational posts, events	4–5x/week
LinkedIn	Target diaspora professionals, investors, corporate clients	Market reports, company updates, investment insights	2–3x/week
WhatsApp Broadcast	Direct lead nurturing and client updates	New listings, market news, construction updates, testimonials	3x/week
YouTube	Long-form trust content, searchability, evergreen content	Property tours, renovation documentaries, wealth cycle explainers	1–2x/week (Phase 2)
Google Business Profile	Local SEO, credibility, reviews	Property photos, updates, respond to every review	Weekly updates

Content Pillars — 5 Categories to Rotate

Pillar	Purpose	Example Content	% of Posts
1. Property Showcase	Generate direct leads and inquiries	Land tour videos, house listings, before/after renovations	30%
2. Wealth Education	Build trust and position as experts, not just agents	'How to go from 1 to 4 properties in 3 years', ROI calculators, market data	25%

3. Behind the Scenes	Humanize the brand, build emotional connection	Team at work, site visits, client meetings, construction progress	20%
4. Client Stories & Testimonials	Social proof — the most powerful trust signal	Video testimonials, client journey stories, 'We helped them double their portfolio'	15%
5. Market & Rwanda News	Establish authority, attract serious investors	Kigali market trends, new development zones, land price updates	10%

Content Production System

Weekly Content Schedule

Day	Content Action
Monday	Post: Educational wealth tip or market insight (carousel or short video)
Tuesday	Post: Property listing (land or house) with drone video or photo tour
Wednesday	Post: Behind-the-scenes — site visit, team, client interaction
Thursday	Post: TikTok/Reel — entertaining or educational short video
Friday	Post: Client story or testimonial — video preferred
Saturday	Post: Weekend engagement — question, poll, 'which property would you choose?'
Sunday	Plan next week's content + respond to all comments and DMs

Social Media Account Setup Checklist

- Business name: evaramu Group Ltd | Handle: @evaramugroup (all platforms)
- Profile photo: Professional logo on clean background
- Bio: 'Building wealth through property. Rwanda's trusted real estate & construction partner. Book a free consultation 📞'
- Link in bio: Landing page with WhatsApp CTA, property catalog, and contact form
- Pinned post: Brand introduction video — who we are, what we do, why trust us
- Highlights (Instagram): Listings | Renovations | Testimonials | Wealth Tips | About Us
- WhatsApp Business: Set up automated greeting, away messages, quick replies, product catalog
- Google Business: Verify location, add photos, request reviews from first clients immediately

Diaspora-Specific Social Strategy

The diaspora segment requires a separate social layer because they consume content differently. They are on LinkedIn and YouTube more than TikTok. They trust data, reports, and credentials.

- Create a monthly 'Kigali Market Report' PDF — shared on LinkedIn and via email
- Run Facebook Groups targeting Rwandan diaspora in UK, Belgium, USA, Canada, South Africa
- YouTube series: 'Investing in Rwanda from Abroad' — one episode per month
- Instagram Story series: 'Client Build Diary' — weekly update on a diaspora client's construction project
- LinkedIn: Company page with investment insights, market data, and case studies

07. The evaramu Wealth Cycle — Detailed Model

This is what separates evaramu Group Ltd from every other agency in Rwanda. We are not a transaction company. We are a wealth-building partner. Clients who stay in the cycle go from owning 1 property to 4–5 within 3 years.

Here is how a typical client journey works through the evaramu Wealth Cycle:

Year	Client Situation	evaramu Action	Outcome
Year 0	Client has RWF 8M savings. No property.	We source a verified plot in Kanombe. We negotiate. We close.	Client buys first land: valued at RWF 10M
Year 0–1	Land sitting idle.	We build a simple 2-unit rental on the plot.	Construction cost: RWF 18M. Property now worth RWF 35M.
Year 1–2	Property completed.	We find tenants. Charge 10% management fee monthly.	Client earns RWF 400,000/month passive income.
Year 2	Client wants to grow.	We advise: time to sell. We list and market professionally.	Sold for RWF 40M. Client made RWF 14M gain + 24 months income.
Year 2–3	Client has RWF 54M total.	We reinvest into 2–3 properties simultaneously.	Client now owns 3 properties. Cycle repeats.
Year 3+	Portfolio of 4–5 properties.	We manage all properties. evaramu earns ongoing management fees.	Client: multiple income streams. evaramu: recurring revenue + lifetime loyalty.

Why This Model Wins

- Clients don't leave because we are embedded in their financial future, not just one deal
- Each completed cycle generates testimonials, referrals, and case studies — the best marketing
- Recurring property management fees create stable monthly revenue independent of new deals
- Diaspora clients especially love this — they entrust their wealth to one reliable Rwandan partner
- As the portfolio grows, evaramu's commissions, management fees, and build contracts all scale together

08. Phased Execution Plan

Start small. Build strong. Each phase funds the next. Never expand faster than your trust can support.

Phase 1 — Register, Build, Find Team (Months 1–3)

Legal & Governance

- Register evaramu Group Ltd at RDB — obtain TIN, business license, and bank account
- Draft shareholders' agreement between co-founders
- Establish internal board: appoint Chairman and MD roles formally
- Open company bank account — separate from personal accounts from day one
- Secure evaramu.rw domain and evaramugroup.com as backup

Brand Identity

- Commission logo, brand colors, and typography — budget RWF 150,000–300,000
- Create brand guidelines document — fonts, colors, tone of voice, logo usage
- Design standard templates: quotation, contract, invoice, receipt, property listing sheet

Technology Setup

- Build simple landing page: who we are, services, property listings preview, WhatsApp CTA
- Set up all social media accounts with consistent branding
- Configure WhatsApp Business with greeting, quick replies, catalog
- Build property database in Airtable or Notion — catalog all existing properties
- Set up basic CRM to track every lead from day one

Team

- Identify freelance photographer/videographer — budget per project
- Identify part-time legal/documentation support
- Define roles clearly between both co-founders — no overlap, no confusion

Phase 1 Success Criteria: Company registered. Brand live. All social pages active. 50+ properties in database. First content posted.

Phase 2 — First Deals & First Builds (Months 4–9)

evaramu Realty

- Aim for 8–12 closed property transactions by end of Month 9
- Launch diaspora service package — documented, priced, and advertised on LinkedIn/Facebook
- Begin paid social media ads targeting Kigali buyers and diaspora
- Initiate at least 3 clients into the evaramu Wealth Cycle — document their journeys
- Secure first 5 rental management contracts for recurring monthly income

evaramu Construction

- Complete 3–5 renovation/finishing projects — document with before/after video content
- Offer first remote supervision project to a diaspora client
- Build Standard / Premium / Luxury finishing packages with fixed pricing
- Grow vetted sub-contractor network: 5+ masons, 3+ electricians, 3+ plumbers, 2+ tilers

Team Additions

- Hire or partner with a part-time Sales Agent on commission (5–10% of deal)
- Onboard a Site Supervisor for construction projects — trusted, experienced

Phase 2 Success Criteria: 10+ deals closed. 3 construction projects completed. 3 wealth cycle clients active. RWF 20–30M revenue.

Phase 3 — Brand + Technology Platform (Months 10–24)

- Launch evaramu property listing platform: search, map integration, WhatsApp contact, agent login
- Build and deploy client dashboard for diaspora: live updates, documents, photos, payment history
- Take on first full residential construction project (not just renovation)
- Hire full team: Sales Agent, Site Supervisor, Finance, Content Creator
- Expand to peri-urban markets: areas around Bugesera (airport corridor), Musanze, Huye
- Publish monthly 'Kigali Property Market Report' for diaspora and investor audience
- Target first RWF 100M annual revenue milestone

Phase 3 Success Criteria: Platform live. 15+ managed rental units. First full build complete. Team of 6–8. RWF 100M revenue.

09. Goals & Key Performance Indicators

Year 1 KPIs (2025)

KPI	Target	Owner
Business registered and operational	By end of Month 1	Co-Founder 1
Social media following (combined)	1,000+ followers total by Month 6	Social Media Lead
Property listings in database	50+ by end of Month 2	Co-Founder 2
Deals closed (sales + rentals)	Minimum 10 closed transactions	Sales Team
Construction projects completed	3–5 renovation/finishing projects	Head of Construction
Diaspora clients served	2–3 with full reporting package	MD
Wealth Cycle clients initiated	3 clients entered the cycle	Realty Division
Total Revenue	RWF 30–45 million	Finance Director
Client testimonials collected	Minimum 10 verified	Customer Success
Google Business reviews	10+ positive reviews	All team

Year 2 KPIs (2026)

KPI	Target
Revenue	RWF 75–105 million
Staff	4–6 full-time employees operational
First full residential build	Completed and handed over
Rental units managed	15+ properties under management
Platform launch	Property listing website live with 100+ listings
Wealth cycle completions	3+ clients have completed at least one full cycle
Diaspora revenue share	20%+ of total revenue from diaspora clients

Year 3 Vision (2027)

- evaramu Group Ltd is a recognized mid-market leader in Kigali real estate and construction
- PropTech platform live — listings, dashboards, and wealth tracking in one system
- First gated or multi-unit development project under construction
- Revenue: RWF 150–170 million annually
- Team of 10–15 across both divisions
- Expansion into Eastern Province — largest demand outside Kigali

- Brand known for one thing: 'They don't just sell property. They build wealth.'

10. Risk Management

Risk	Likelihood	Impact	Mitigation
Construction cost overrun	High	High	Fixed-price client contracts. 15% contingency buffer. Weekly cost tracking.
Land title fraud or disputes	Medium	Critical	Verify every title at RLA before any transaction. Never proceed without clean confirmation.
Client payment default	Medium	High	30–40% deposit upfront on all construction. Milestone payment schedule for remainder.
Brand damage from one bad deal	Low–Medium	Critical	Over-deliver on first 10 projects. Document everything. Never overpromise timelines.
Sub-contractor quality failure	Medium	High	Site supervision on every project. Vetting process for all contractors. No new contractor on high-value jobs.
Cash flow shortfall	Medium	Medium	Build 3-month operating reserve. Rental management income = recurring revenue buffer.
Team misalignment	Medium	High	Clear role definitions. Monthly board meetings. Culture rules enforced from day one.
Social media account hacked	Low	Medium	2FA on all accounts. Backup email. Consistent posting so community would notice immediately.

11. Financial Plan — Year 1

Startup Budget (One-Time Costs)

Item	Estimated Cost (RWF)
RDB Business Registration	100,000 – 200,000
Legal fees (shareholders agreement, contracts)	200,000 – 400,000
Brand identity (logo, design system)	150,000 – 300,000
Domain + website (basic landing page)	100,000 – 250,000
Photography/video setup or equipment	200,000 – 500,000
Office materials, stationery, initial printing	80,000 – 150,000
Software tools setup (CRM, Airtable, etc.)	50,000 – 120,000
TOTAL	RWF 880,000 – 1,920,000

Monthly Operating Costs

Item	Cost/Month (RWF)
Social media paid advertising	50,000 – 200,000
Software subscriptions	30,000 – 80,000
Transport and site visits	50,000 – 120,000
Freelance (photographer, legal, etc.)	100,000 – 200,000
Miscellaneous	50,000 – 100,000
TOTAL MONTHLY OPEX	RWF 280,000 – 700,000

Key Insight: evaramu Group Ltd requires under RWF 2M to launch professionally. The founding network, skills, and client base already exist. Capital is spent on brand, legal, and marketing — not office rent or inventory. This is an extremely capital-efficient business to start.

Revenue Projections

Revenue Stream	Year 1	Year 2	Year 3
Sales Commissions (Realty)	RWF 12–18M	RWF 30–45M	RWF 50–70M

Rental / Property Management	RWF 3–6M	RWF 10–18M	RWF 20–30M
Construction / Renovation Revenue	RWF 10–18M	RWF 30–50M	RWF 55–75M
Diaspora Services	RWF 2–5M	RWF 8–15M	RWF 20–35M
TOTAL GROUP REVENUE	RWF 27–47M	RWF 78–128M	RWF 145–210M

12. 30-Day Launch Plan

When	What To Do
Days 1–3	Register evaramu Group Ltd at RDB. Secure evaramu.rw domain. Open company email.
Days 4–7	Commission logo and brand identity. Set up company bank account. Draft co-founder agreement.
Days 8–12	Create all social media accounts. Configure WhatsApp Business. Activate Google Business Profile.
Days 13–17	Catalog 50+ existing properties into digital database. Create property listing templates.
Days 18–22	Shoot first 5–10 properties professionally. Post first content across all platforms.
Days 23–26	Launch simple landing page. Create contract and invoice templates. Set up CRM.
Days 27–30	Identify first paid social ad budget. Reach out to first 10 potential clients. Collect 3 testimonials from father's existing clients.
Month 2	First paid ads live. First construction project started. First diaspora inquiry responded to professionally.
Month 3	First 3 deals closed. First wealth cycle client documented. Review what is working and double down.

evaramu GROUP LTD

"We don't just sell property. We build wealth."
